

Time Was
by Griff Sanford

(Capo 2)

V1

Em Em7 D C
Coming for the world and don't you worry
Em Em7 D C
Coming from the tunnels deep and still
Em Em7 D C
Coming, there's no use to try to hurry
Em D Em
Coming in a blink when time stood still

V2

Falling, from a distance we can't fathom
Falling, to the mushroom clouds they go
Falling, soon to dig a cloudy chasm
Falling, though we say it isn't so

CHORUS

C D Em
Time was when I thought we had a future
C D B7
Time was when I reached out for your hand
C D Em
Time was when we always thought we'd make it
C D Em
Time was what robbed us of what we'd planned

V3

Outside we can hear them, they are counting
Counting down the minutes to our end
Frozen as we realize that nothing
Turns back the clock, we cannot amend

CHORUS

V4

Ending all the world in just an hour
Weeping as the fire drowns out the screams
Burning all the world with crimson power
No one will ever know our dreams

CHORUS
