

No Kings In America
by Griff Sanford

6/8, capo 3, moderately strummed

V1

 D G
You can be a leader in your field
 D A
You can be the star of the show
D G
You can be an athlete
 D A
Who's got the very best throw
 G D
You can be a business mogul
 G A
Or a singing celebrity
 D G
You can be a golfing champion
 G A D
But you can't be a king, you see

V2

There are no kings in America
There is no golden chair
You can say you are but we will laugh
At you and your thinning hair
There are no kings in America
Never have been, and never will be
We had a big war about this once
And we'll never have a king, you see

CHORUS

 G D
There are no kings in America
 G A
There is no crown or throne
 G D
The White House is not a castle
 G A
It is the People's home
 Em G
So if you aspire to be a king
 Em A
We'll have to show you the door
 D G
We had a big war about this once
 G (Em) A D
And we'll never have kings anymore

V3

You've got lots of hangers-on
Who are really just for show
Who tell you yes to everything
And never tell you no
So you think you are royalty
And now you want a war
But we already fought that one
And we don't have kings any more

CHORUS

V4

You're a big name, that's just fine
Everyone knows who you are
But we're drawing a line at the king thing
You only get to go so far
We don't have kings in America
You don't get a pass on that rule
So take your so-called Presidency
And get out of town, you fool

CHORUS
