C D G Em
We've all had a day that could be better

We've all had a time when nothing's working
We've all had a day of "stop" and "slow"
Everyone has had to face the music
Everyone has had their share of "no"

CHORUS

Am7 G
Remember, though, that nothing is forever
Am7 D
And there will always be another day
Am7 D G Em
Remember that a trickle is in motion
Am7 D G
Remember water always finds a way

Verse 2

We **all** have had a time when there's no choices
And every choice seems harder than the last
Everyone has had a day of spinning
A day of going nowhere really fast

Water Finds a Way
by Griff Sanford

Everyone knows **what** it's like to blow it
We **all** have vivid **memories** of that scene
Everyone has had a rotten morning
Everyone just wants to wash it clean

CHORUS

G Em G Em G

Verse 3

Take a minute, come and see the water
Watch the streams as they go tumbling on
See the sea and feel the waves continue
Feel the movement, feel the light of dawn

Let it go and let it take you onward
Find the rills and spaces for the flow
See the water find a way around it
Be with the water, going as you go

CHORUS 2

Remember that the sun will go on rising
Remember that the moon will wax and wane
Remember that the bad day isn't staying
Remember there will be an end to pain

CHORUS

OUTTRO

Am7 D Em
Remember water always finds a way
Am7 D G
Remember water always finds a way
