

We'll Keep Singing

by Griff Sanford

(Capo 4)

G Em Am7 D

V1

G D G G D G
They say pack up your sorrows, your thirsty boots are worn
C Em Am7 D
How the enemies are winning, and we have to sound the horn
G D G G D G
They've been around forever, it's a never-ending fight
C Em Am7 D
To help uplift the helpless and to take back every night

Chorus

C D G Em
You are more than the wear on your thirsty boots
Am7 D Em Em7
You are more than the lonesome road
Am7 D G Em
You are more than the protests and the never-ending fight
Am7 D
You are more than the seeds you sowed
C D G Em
We are more than the speeches and the chanting
Am7 D Em Em7
We are more than the human zoo
Am7 D G Em
Take a breath while we keep on singing
Am7 D G
Take a breath for me and you

V2

I know you made a promise, I know you have a plan
To lead the charge, to light the way, to do everything you can
But you are not alone here, we're all fighting this fight too
And we're all in this together, hold me up while I hold you

Chorus

Bridge

Am7 G
Just add your voice to all of ours
Am7 Em
We have a place for you
Am7 G
Take a breath while we keep on singing
Am7 D
Take a breath for me and you

V3

We're out to fight the good fight
And we have to do it now
We will lead the charge, we'll find the way
We will make it there somehow
Just lend your song to our song
Just let it lead the way
Let us fight for our tomorrows
With every passing day

Chorus

Outtro

Am7 D Em Em7
Just one breath for me and you
Am7 D G
Just one breath for me and you
