

Unsung Heroes
by Griff Sanford

Capo 4, 6/8, strummed

V1

C F C
There were people who started this war
C G
There were those who would fight
C Am
There were people who evened the score
F G C
People unknown to the Light

One of our leaders, a hero and fiend
Luthen Rael was his name
A man who meddled and pushed and leaned
On friend and on foe the same

CHORUS

Am G F E
People who started it, people who won
Am G F E
People who spoke with the end of a gun
Am G F E
People who pulled all the strings they could snare
F G
People who brought us there

V2

Lonni Yung was a family man
Gave it up for what was right
He found out the truth about what they planned
He gave up his life for the Light

Cassian Andor from Ferrix unheard
Became a weapon of war
Dozens of missions he carried out
To help us settle the score

CHORUS

V3

Galen Erso was deep inside
Imperial lock and key
He ruined their weapon for good and for all
He did it for you and for me

His daughter Jyn Erso went by his command
To Scarif where she would find
The plans that would let us destroy their hopes
Though she was left there behind

CHORUS

V4

You've heard of others of highest renown,
Skywalker, Solo, and Wedge
Leia Organa, Mon Mothma and Bail,
And others who went to the edge

But the unsung heroes whose names have been lost
When Rebels all fought for the war
Remember their lives, remember the cost
And what they were fighting for

OUTTRO

Remember them always, remember their lives
And what they were fighting for
